

TechCore Gaming FPS Checklist

Free TechCore utility - Safety-first reference

1. Use the monitor's native resolution and verify refresh rate.
2. Update the GPU driver from the official vendor.
3. Close unnecessary overlays and background apps.
4. Check CPU and GPU temperatures and power mode.
5. Lower shadows, reflections, volumetrics, and ray tracing first.
6. Use FSR, DLSS, or XeSS when supported.

Stop for smoke, sparks, burning smells, liquid damage, or anything unsafe.
