

TechCore First PC Build Checklist

Free TechCore utility - Safety-first reference

1. Confirm CPU and motherboard socket compatibility.
2. Confirm RAM type and supported capacity.
3. Use a quality power supply with enough wattage and connectors.
4. Install motherboard standoffs correctly.
5. Connect CPU power and motherboard 24-pin power.
6. Connect the monitor to the graphics card when one is installed.

Stop for smoke, sparks, burning smells, liquid damage, or anything unsafe.
