

# TechCore PC Maintenance Calendar

Free TechCore utility - Safety-first reference

1. Weekly: Restart the PC, install important updates, and check free storage.
2. Monthly: Review startup apps, run a security scan, and clean external vents.
3. Every 3 months: Clean dust filters and inspect cables.
4. Every 6 months: Back up important files and review drive health.
5. Yearly: Inspect temperatures, fans, and upgrade needs.

*Stop for smoke, sparks, burning smells, liquid damage, or anything unsafe.*
